

I would like to understand why it's not beyond the scope of NAB to dictate what I listen to.. I am deeply saddened about the outrageous trend the admistration has set for corporations to monopolize capatalize and destroy anything decent. It must be unacceptable for the FCC to accept NAB petition 04-160. Please to succumb to cowardice in bequest of corporate sell out.. The freedom to choose should not become a legacy. I love satellite radio and benefit greatly from their services. There is nothing that equals the quality and choices.  
sincerely,

Joanne kestenbaum
